Maths Week and Parent Workshops

Dear Parents

On the week beginning the 12th June, we will be celebrating NIGHTINGALE MATHS WEEK! We would love you to be a part of it.

During Maths Week, children will be immersed in fun, mathematical challenges that will focus on multiplication and division. Children will be playing games daily, taking part in fun maths quizzes and having the opportunity to be part of various competitions to win prizes!

We would love you to be involved and are excited to invite you to a calculation workshop (focusing on addition, subtraction, multiplication and division methods). We understand that over time, Maths methodology and strategies continually change and it can be hard and confusing to keep up. When you want to support your children, this can be frustrating. Because of this, we will be holding sessions to share and model the methods we use at Nightingale. This will hopefully help you understand them, have a practise and ask questions if needed. We will be talking through methods used from Year 2 onwards however this will also be useful for our EYFS and Year 1 parents to come and see the progression of their child's future mathematics learning.

These will be held on:

- Tuesday 13th June 2023: 3:30PM – 4:15PM (Please feel free to bring your children to this session if you wish so you can work together)
- Wednesday 14th June 2023: 10AM – 10:45AM

In order for us to support numbers attending, please complete the following form [Parent Workshop Form](#) . Biscuits will be provided to stimulate our mathematical brains!

We look forward to seeing you there!

Yours sincerely

Miss Anderson and Miss Cottrell
