Remote Education

Dear Parents,

As I am sure you have become aware from recent communications, we are experiencing a high level of absenteeism where families and children are suffering from the usual ailments experienced at this time of the year but due to the nature of the symptoms, need to isolate and seek a COVID-19 test. We know only too well that there have been delays and difficulties in doing this, resulting in more time missed from school.

Missing any further education must be avoided. We therefore have a contingency plan to offer remote education similarly to the learning offered during the partial school closure. This will consist of online tools to allow interaction, quick feedback and meaningful and ambitious work for each day that is equivalent in length to the core teaching children would receive in school.

From Monday, those children who are self-isolating and well will need to complete their remote education until it is safe for them to return to school. In order to access your child's learning activities, go onto their ClassDojo page and download where necessary. On children's return to school they will need to hand their work into their class teacher. In the unlikely event of an extended period of time in isolation, your child's class teacher will request that work is uploaded to ClassDojo to allow for feedback and further direction.

We ask that you are mindful of our teacher's workload as they offer this in conjunction with their planning, teaching and preparation within school. Hard copies can be requested from the office by emailing adminoffice@nightingale.hants.sch.uk.

Yours sincerely and with best wishes,

Mrs Hannah Beckett
